ElliptiGO® **3C**

The ElliptiGO 3C is our entry-level, long-stride model. With three gears to choose from, the 3C is perfect for anyone who wants to get a great cardio workout on flat terrain or gently rolling hills. You can enjoy a comfortable cruising experience or push the pace to reach speeds up to 25 mph. Like all of our long-stride bikes, the 3C's adjustable stride length and handlebar height enable you to get into the perfect position to experience a natural, running-like feeling.

GET OUTSIDE AND HAVE FUN EXERCISING ON THE ELLIPTIGO 3C!

Take your fitness to the next level

FANTASTIC RIDING EXPERIENCE

Comfortable: Natural stand-up riding position reduces stress on your neck and back and eliminates seat pain

Fun to ride: Gives the feeling of "running on air"

Low-impact: Very gentle on your joints

Great visibility: Higher riding position makes it easier for you to see and be seen

GREAT WORKOUT

Fat burner: Burns 33% more calories than a traditional bicycle - providing a better workout in less time

Full-body conditioning: Engages your core and upper body in addition to your legs

Weight-bearing exercise: Increases your heart rate and is good for bone density

TREMENDOUS VERSATILITY

Indoor/outdoor solution: Train year-round on the road, on the trail, or on our stationary trainer

One-size-fits-most: Fits a wide range of riders with quick, easy adjustments

Multiple foot positions: Lets you target different muscle groups while keeping your feet comfortable

Portable: Can fit inside most vehicles and on roof, trunk and hitch racks

Fits your riding style: Gearing makes it great for cruising, sprinting on the flats or climbing the steepest hills

Bike Architecture Comparison

	ElliptiGO **SUB**	ElliptiGO **RSUB** | **MSUB**	ElliptiGO **3C** | **8C** | **11R**
PEDAL MOTION	 Enjoy a familiar circular pedal stroke similar to a conventional bike, but with more comfortable positioning. Works quadriceps more than our long-stride models.	 Experience the circular pedal stroke you know in an brand new way on the RSUB and MSUB. Works quadriceps more than our long-stride models.	 Long-stride models deliver a running-like experience and balanced muscle activation. These models feature adjustable stride lengths, are the easiest on joints, and are adept for longer rides.
FOOT PLATFORM	Custom pedals offer a lightweight, responsive design, engineered to channel energy into motion while rising up to ride.	Create power and motion with custom lightweight, responsive pedals designed for riding tall on the trail.	Provides stability and comfort and delivers optimal power transfer; multiple foot positions allow targeting different muscle groups.
